

- **Efficient Insulation:** Greatwall™ insulated panel allow temperature control perfectly between range of  $-50^{\circ}\text{C}$  to  $70^{\circ}\text{C}$
- **Energy saving:** Due to an excellent insulation performance of Greatwall™ insulated panel, when installed as roof, wall, or ceiling, it can relieve heat flowing into building and save electricity cost
- **Durability:** Made of coated galvanized steel on both surface, Greatwall™ insulated panel is durable and applicable for various construction use
- **Low Maintenance:** Polyester coating on Greatwall™ insulated panel's smooth surface allows easy dirt removal and lower maintenance effort, prolonging lifetime of usage
- **Quick Installation and Cost Saving:** Greatwall™ insulated panel is light weighted,  $8-17\text{ Kg/m}^2$  thus permit quicker installation and save construction cost
- **Excellent after-sale services and quality warranty**

ค่าการนำความร้อน (Thermal Conductivity) (W/mK)

REDUCE GLOBAL WARMING

NO DAMAGE TO OZONE

FOREST FRIENDLY

ENVIRONMENTAL FRIENDLY

- **Environmental friendly:** EPS is self-extinguishing grade and CFC-free, thus harmless to ozone layer. Our production technology can also yield low pentane emission to atmosphere which can save environment and lessen global warming effect
